

MADDOX

*Ela*

49.8M (163FT) | 12 GUESTS | 6 CABINS | HEESEN | 2021

ASKING \$42,000,000

Ela gives a lot  
of *style & features*  
at a great price.

WILL HARRISON, CEO

Built by *pedigree* Dutch shipyard Heesen Yachts, Ela may not be the biggest on the market, but she more than makes up for it with *luxurious style, quality of fittings* & the most *efficient* hull form in her class.

This fast displacement motor yacht is powered by twin 1,448Hp MTU engines, reaching an impressive top speed of 19.50 and a cruising speed of 14 knots. The Van Oossanen-designed aluminium hull gives her an eye-catching, contemporary profile, and her 2.16m draft allows for navigation and anchoring in shallow waters.

Inside, this immaculate vessel is crafted from the finest materials and furnishings. Warm walnut veneers and soft matt finishes create a serene and harmonious ambience throughout the lavish living spaces. Accents such as unique custom-designed, hand-tufted carpeting, organically shaped furniture and floor-to-ceiling windows on both decks make for a stunning, refined space made for partying.

The generous full-beam owner's suite is on the main deck forward, immaculately presented and with its own private office. Then there is a full-beam VIP stateroom, and four further spacious cabins that can be used as doubles or

twins on the lower deck, each with a Pullman. In all, she accommodates 14 guests in elegance and high comfort, plus further accommodation for a crew of up to 12 across six cabins.

The huge open-plan main salon has three distinct areas, two for entertaining or relaxing and a formal dining area, with furnishings as stunning as the views from the floor-to-ceiling windows. But stepping out onto the decks is a revelation. The sundeck is glorious, with a shaded outdoor lounge setting complete with a dining area and bar. On her foredeck, there is a pop-up big screen cinema lined with lounging beds for alfresco film nights with family and friends. Or you can venture aft to the jacuzzi with uninterrupted panoramic views.

Down at the beach club there is a double-depth swimming platform and an extendable diving and subsea panel for launching Seabobs, Fliteboards, jetskis and Schiller bikes.
